Adding Your First Knowledge Article

Who:

OWNER

Plans:

TRIAL

Start using RITA Go by adding at least one Knowledge Article to create your knowledge base.

On the dashboard:

1. Click the **Upload a file** tile in the center of the dashboard.
2. Choose a supported file (.pdf, .doc, .docx, .md, .txt) up to 100 mb.
3. Click **Open**.
4. Check the top bar for upload status: *We are loading knowledge...*
5. Click **Knowledge Articles** in the left panel to confirm upload status.
6. Confirm the *Status* of the new article in the list.
7. Return to the main screen or click **New Chat** once the article is **Processed**.

For more detailed information about best practices for knowledge articles, see [Knowledge Base Setup](#).
For more information about uploading additional articles, see [Uploading Knowledge Articles](#).

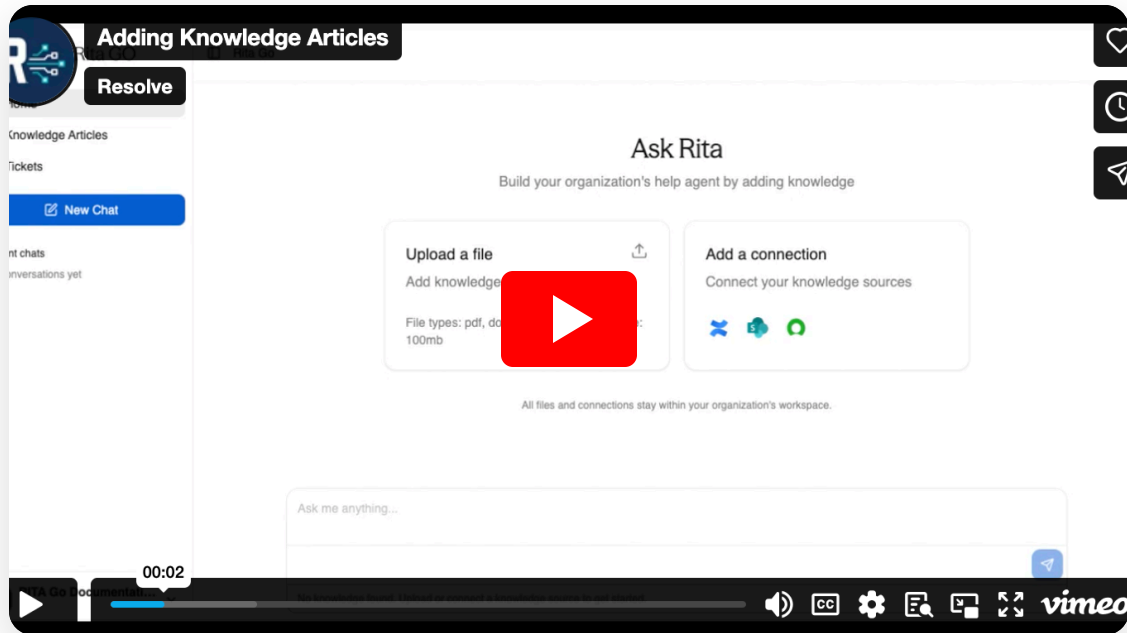

CAUTION

You must add Knowledge Articles before adding Users. If you do not add Knowledge Articles first, Users will be unable to interact with RITA Go.

Connections

You can also start RITA Go with a connection to an existing knowledge base. For more information, see [Add Connections](#).
